Urgent Update: Digital Border Services Disruption

Dear traders,

There is an issue impacting some digital border services. Defra are investigating the scope and cause of the issue and will look to identify and implement a fix as soon as possible.

They maintain the ability to implement robust contingencies at pace, to support the smooth flow of trade and will continue to monitor the situation across all points of entry.

Thank you for your patience and cooperation.

Kind Regards,
Suffolk Coastal Port Health Authority
